DOOR & WASHROOM HARDWARE

Suppliers of innovative building products
Quality, Efficiency, Versatility, Innovation

CONTENTS

Our range of door hardware is commercial grade unless specifically indicated otherwise. We offer a door by door scheduling service, and can pack orders door by door if requested, at no charge. This ensures your project meets Australian building code standards.

Standard finish is satin chrome or satin stainless, other finishes are available on most items, such as polished chrome, powdercoat and brass. Commercial items have a limited warranty for 10 years, and items marked as domestic 5 years.

Most products are fire rated however we need to know the door supplier prior to quoting, as each manufacturer tests hardware to suit their doors.
